DRIVER EDUCATION

Driver Education is one of our most popular and useful courses since most of us depend upon wheels to get around. In the center picture, Driver Training Instructor Daniel Shaffer poses with a group of Sophomores just before they start out on a training trip. Above and below are scenes snapped at a special Driver Safety Education program conducted early in the fall by the Nationwide Insurance Company.

FOREWORD

With pride we, the Class of '64, present this twenty-eighth volume of the WARRIOR.

In this volume we strive to grasp and transmit to you much that was contained in our senior days at E. S. H. S.

As you reminisce through this WARRIOR, may you discover a storehouse of memories to the many steps in our stairway of learning:

The teachers and administrators who guided us through many trials and tribulations within and without the classroom.

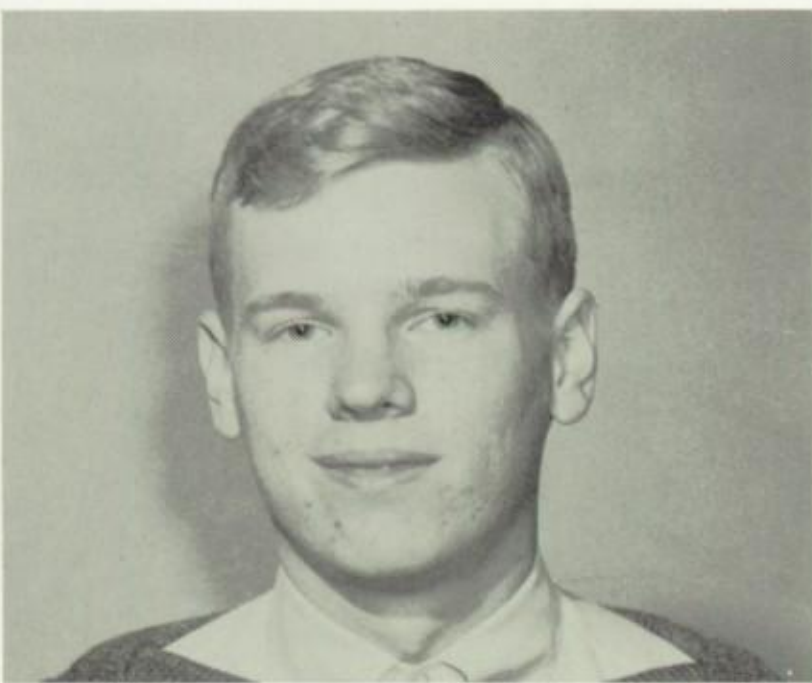

The coaches who molded our athletes,

The helpers who contributed their efforts in our behalf,

The underclassmen who supported us with their roles in the making of this history.

This being our last effort as a class to impress ourselves upon you, we hope that you will recall happy moments when you think of the Class of 1964. We wish you happiness as you continue your ascent on the stairway of education, which leads to success.

IN DEDICATION

We, the Class of '64, are happy to dedicate this edition of the WARRIOR to Mrs. JESSIE V. DIEHL.

Mrs. Diehl has taught at Everett High for seventeen and a half years and for the past ten years has headed the Mathematics Department.

Numerous classes will remember her for all the help she gave them in their Junior year. Whenever they needed help, whether it was for raising funds or decorating for the prom, she was always there to lend a helping hand.

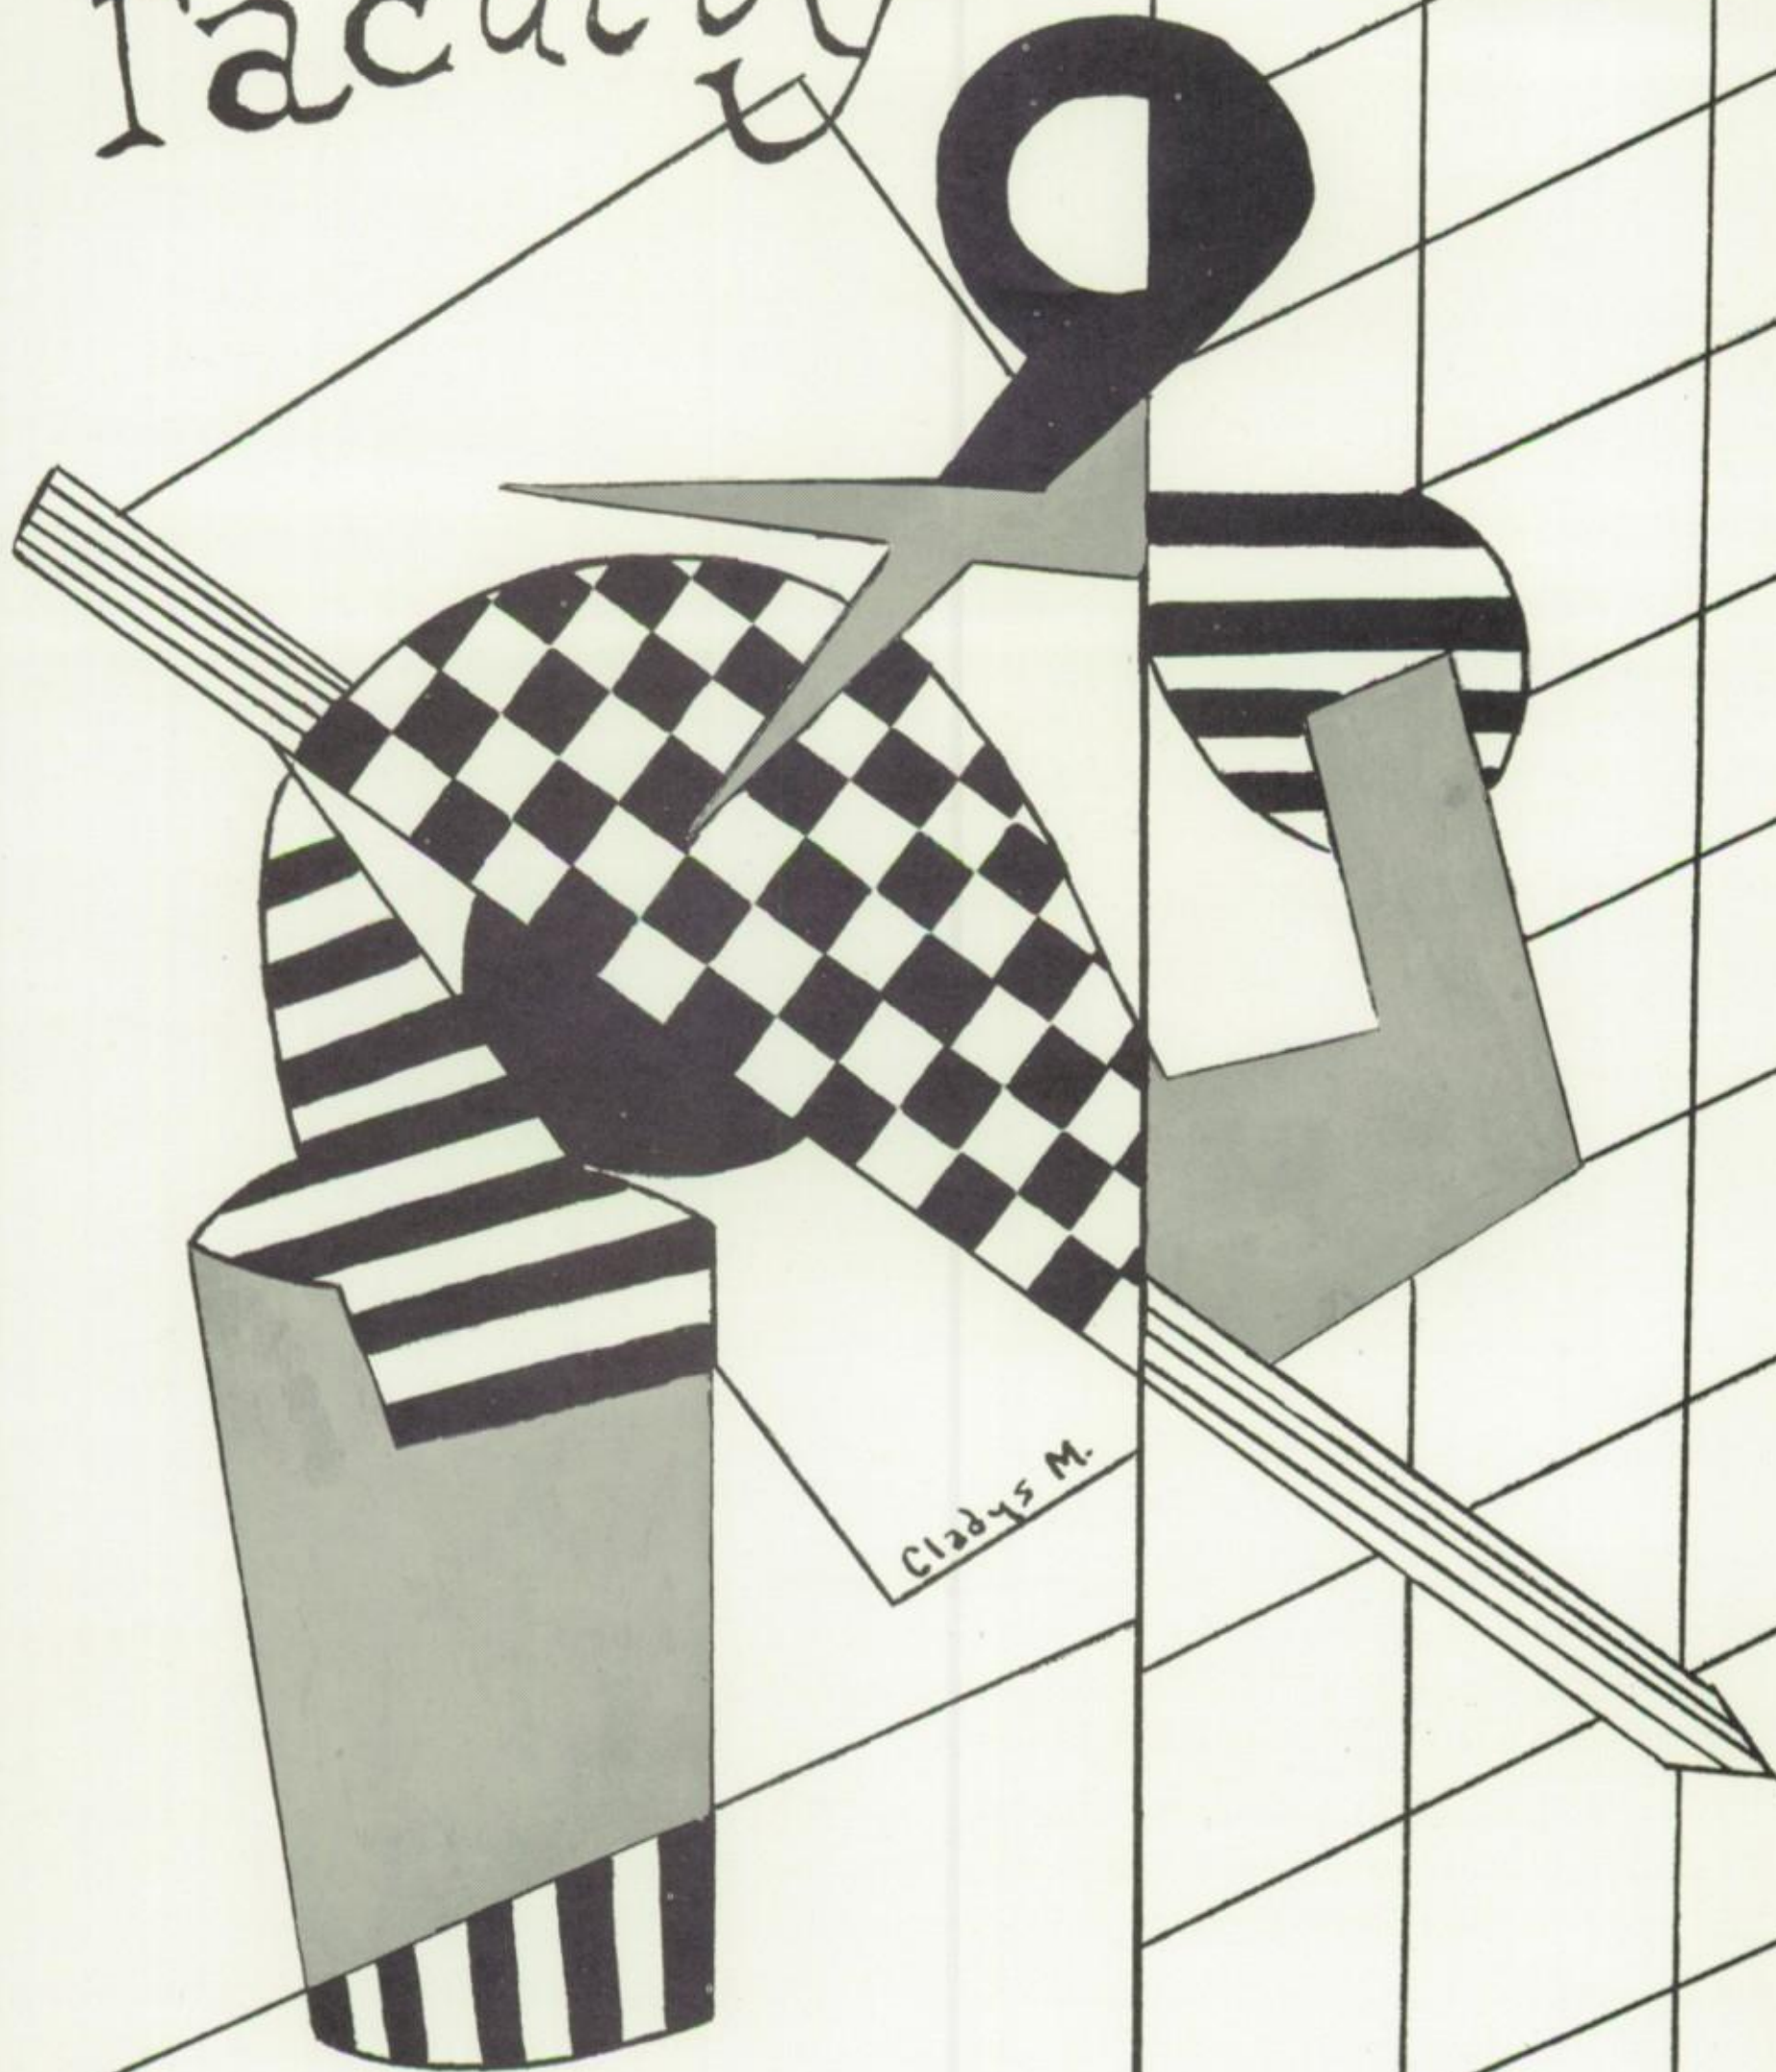

Mrs. Diehl has taught us many lessons from algebra to advanced mathematics. Even with all this, she still had time to go out of her way to help a student, no matter if it were for scholastic or personal advice.

With a deep and sincere appreciation for all her service and extra efforts, we wish Mrs. Diehl continued success and happiness.

Mrs. Diehl checks activities in a secluded corner at the 1963 Prom as well as she supervises a class taking an algebra quiz.

NATIONAL HONOR SOCIETY

The highest honor that a student may achieve in our school is election to the National Honor Society, which was established here to stimulate scholarship, leadership, service, and character among the student body. Since no more than fifteen per cent of any senior class may become members, the honor is thus more distinctive.

Juniors and Seniors who rank high in the above-mentioned qualities and hold an average of B in studies are eligible for consideration as candidates. After a committee of teachers has screened possible candidates, the entire faculty votes upon the nominees.

In an impressive candlelight ceremony the students thus elected are inducted on our annual Awards Day.

CLASS HISTORY

In 1958 we, one hundred sixty-seven young climbers, entered the Seventh Grade of ESHS on the bottom step of the educational stairway. In our first two years we made many friends and became accustomed to upperclassmen and to many teachers. It was in our second year here that the administration instituted a new program in mathematics. A selected portion of our class took Algebra I.

As Freshmen, still ascending the stairs, we sponsored the traditional Freshman skating party as our class project. Many boys became interested in Junior High Sports. Others of us joined clubs, sang in Junior Chorus, joined the Band, or served as reporters to the PARROT.

In our Sophomore year we were termed upperclassmen and began to take bigger steps. The memories of our fruit cake and candy sales still remain on our fourth step. We continued—and broadened—our interests in extracurricular activities. This year we really settled down to work, for we began to realize that the stairway above us was growing shorter with each passing week.

As Juniors, we became even more active in school activities. Instead of the annual Junior Class Play, we presented the first Junior Class Variety Show on April 19, 1963. In this we learned the real value of cooperation as well as the revelation of hitherto unsuspected and hidden talents among our members. We received our class rings and sponsored one of the nicest proms ever held at ESHS.

Now as Seniors, we have reached the top step. As we pause here, we reflect on the many friendships we have made among our classmates and underclassmen and teachers. We are proud of all who have won special recognition because of their individual efforts—Carl Clark for winning the Elks Youth Leadership Contest in the county, Bob Clark for becoming a Keystone Farmer and for his achievements in F. F. A. speaking contests, Dorothy Beegle for taking the prize in the first Jaycee essay and public speaking contest held here, Cindy Davis for being our D. A. R. citizen and taking second honors for girls in the Elks Leadership Contest, and Barbara Hinish for being the winner of the Betty Crocker Search for the Homemaker of Tomorrow test conducted here. We are proud of our athletes, cheerleaders, instrumentalists, and songsters. We are proud of the student secretaries and of all others who have helped in any way to keep our school moving.

As the WARRIOR goes to press, we are eagerly looking forward to the climax of our high school days—our class trip to Washington, D. C., and graduation activities.

We sincerely plan to use our educational stairway as a beginning in order to rise to our ultimate goals. Whatever we do, wherever we go, or whatever we become, we shall always cherish fond memories of our Alma Mater.

CLASS HISTORY

Bewildered and scared, we entered Everett Southern High School as Seventh Graders in 1959. The halls seemed to be filled with giants; but, as the days of our first two years in high school passed, we found that these giants were really only kind and helpful upperclassmen.

When we finally received the title of Freshmen, we realized that we were a real and vital part of the school, too. During this year we began to study the subjects of our selected courses and held a roller skating party.

Upon leaving Junior High, we became Sophomores and began to engage in Senior High activities. Our class adviser, Mr. Himes, helped us with the selling of candles to supplement our class treasury.

This year as Juniors, we helped to select a standard class ring for our school and ordered our own. We are proud that we shall be the first class to wear the standard ESHS ring. In April we continued the precedent set by the Class of '64 and presented a Variety Show. In May we sponsored the traditional Junior-Senior Prom.

Next year the decision of what career to pursue will be uppermost in our minds. After graduating, we hope that our schooling will have helped us to be better prepared to meet the challenges of the future.

As we look forward to the end of this term, we extend congratulations and wish happiness and success to the Class of '64.

CLASS HISTORY

As we entered the Seventh Grade of the Everett Southern High School in 1960, our minds were filled with confusion. The first two years of Junior High were spent in getting accustomed to the hundreds of other students, the many teachers, and entirely new schedules.

In our Freshman year we took advantage of the many courses offered us and the extra-curricular activities. As our first class project, we sponsored a roller skating party and deposited the funds received as a nest egg for our class treasury.

This year as upperclassmen, we became proud of the name of Sophomores. We added to our treasury the amount made from a candle sale at Christmastime. We continued to take part in clubs and athletics, and we worked hard in building the steps to further our education so that we might be ready to meet the goals set for the years to come.

*Success is speaking words of praise
 In cheering other people's ways,
 In doing just the best you can
 With every task and every plan.
 It's silence when your speech would hurt,
 Politeness when your neighbor's curt.
 It's deatness when the scandal flows,
 And sympathy with others' woes.
 It's loyalty when duty calls,
 It's courage when disaster falls,
 It's patience when the hours are long;
 It's found in laughter and in song;
 It's in the silent time of prayer,
 In happiness and in despair
 In all of life and nothing less
 We find the thing we call success.*

INDUSTRIAL ARTS

Boys in this department learn that the first step to a finished product—whether it be of metal or of wood—is a good plan. Here we see them working in metal shop—shaping a stake mallet, polishing a hammer head, and rough turning a hammer head. Over in wood shop one group works with a bobsled while Junior Bill McCormick sands his coffee table before putting the finishing touches on it.

LANGUAGE ARTS

A Senior English class makes preparations for—you guessed it!—a research paper.

French II students are working on a special project. Looks like the vineyard section of France to us!

At Christmastime the Spanish classes followed an old custom and made pinatas for their special display.

MATHEMATICS

The problems of mathematics are being solved as these Junior High boys and girls strive for the same answer.

Here we see Bob and John explaining one of the problems found in today's math.

What are these funny little cones, Mrs. Diehl? Are we having ice cream in Trig class today?

A class in beginning math learns that the dictionary can be very useful in studying mathematics, too.

MUSIC

Mr. Snyder is shown here giving instruction to two of his band students.

"Up on the House Top" echoes through the room as Mrs. Lohman leads a music class in singing.

Our award winning band strikes up a tune at one of its ninth period practice sessions.

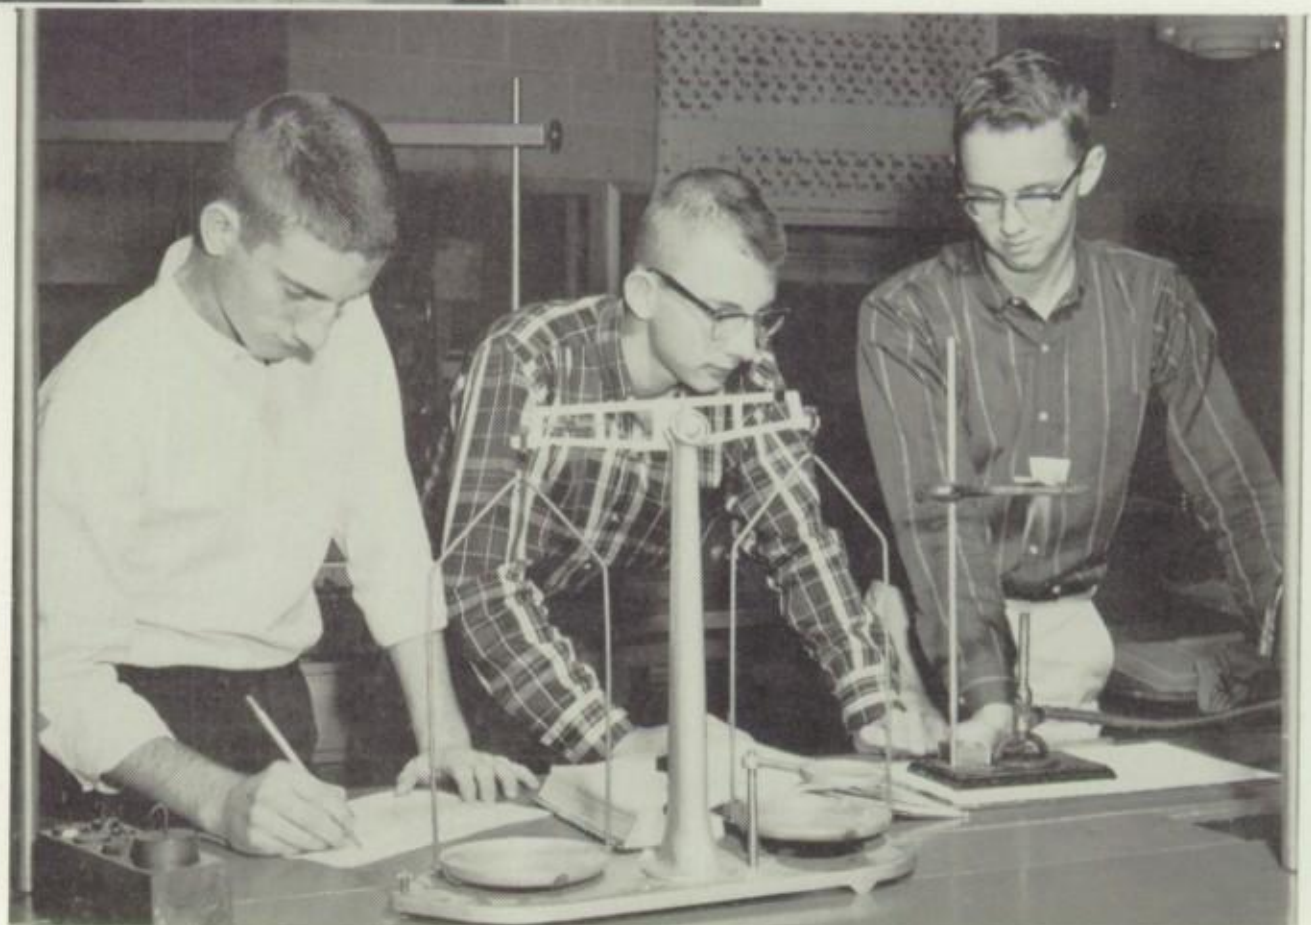

SCIENCE

These three interested Freshmen are studying unusual rock formations.

Here are three Sophomores as they examine their leaf notebooks made as a biology class project.

"Three-two-one—EGADS! Ho-o-ld it!" screams a frightened Junior chemist.

SOCIAL STUDIES

Dorothy Coleman reports to fellow Juniors some interesting facts concerning American History.

These Sophomores are examining World Culture projects.

Two Pennsylvania History students are putting finishing touches on a memorial to President John F. Kennedy.

"There it is!" exclaims Bobby to two of his friends in an Eighth Grade Geography class.

VOCATIONAL AGRICULTURE

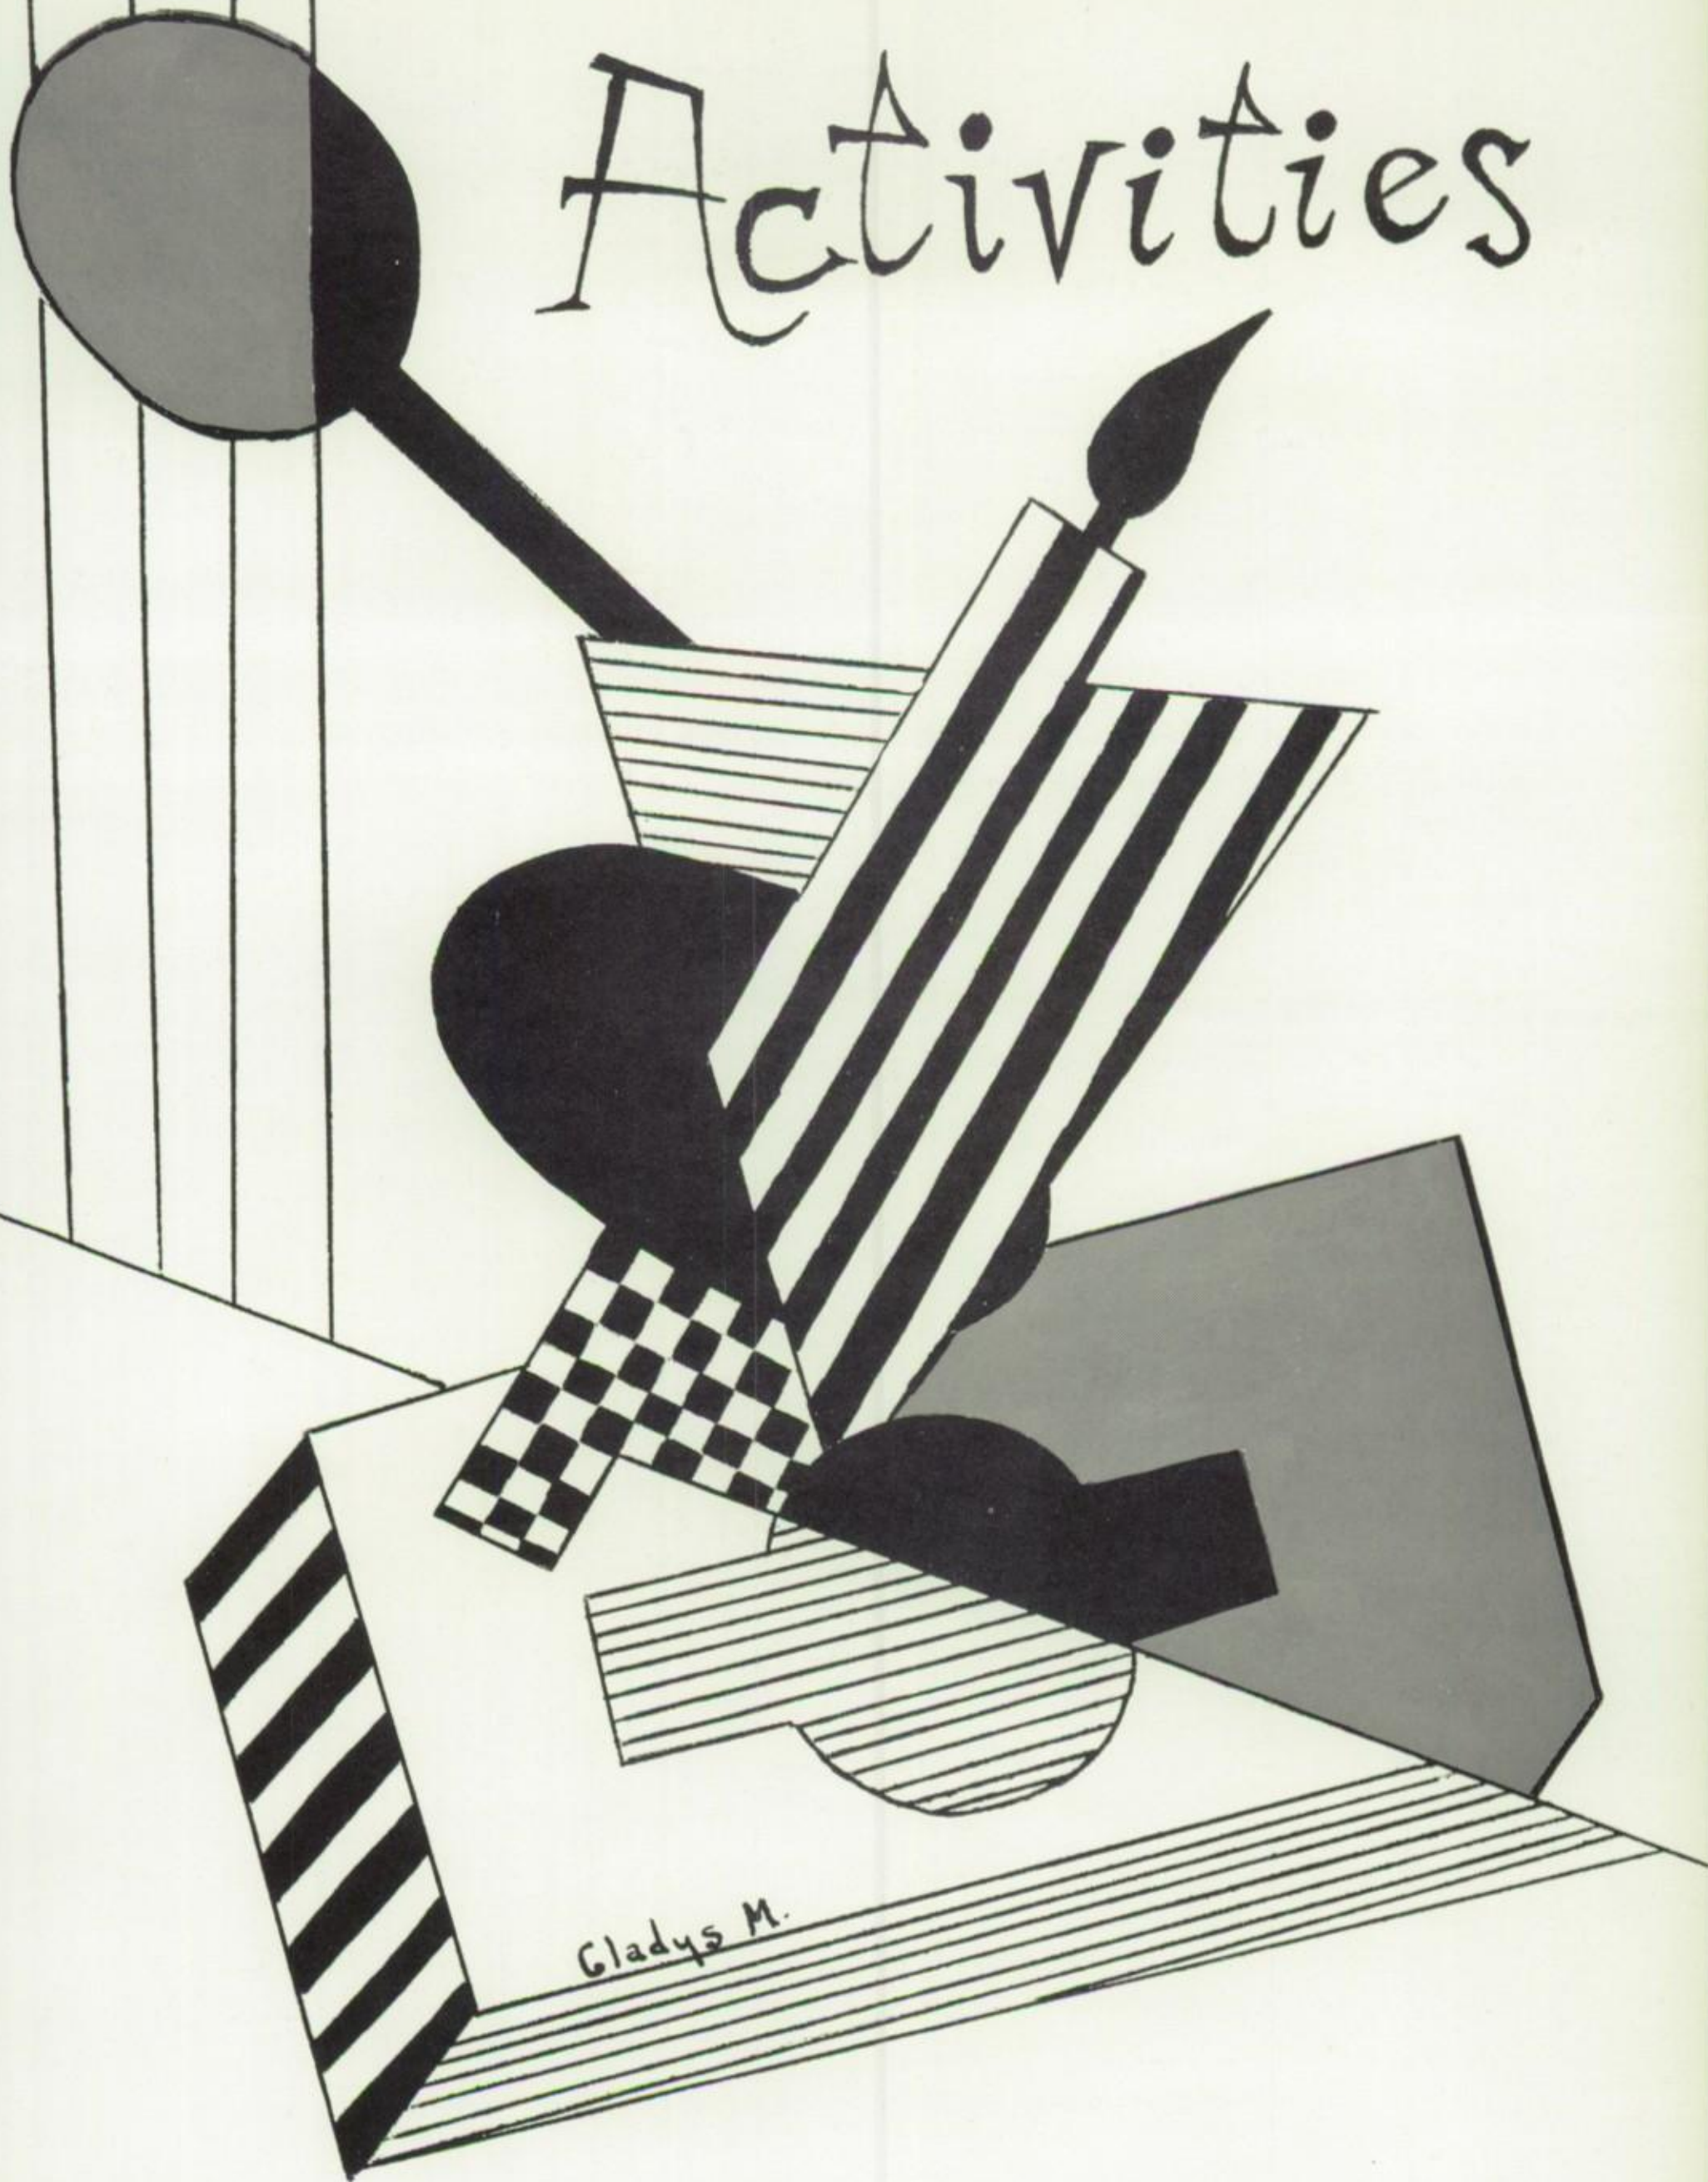

Steps to success as a future farmer—a short step-ladder is in the making.

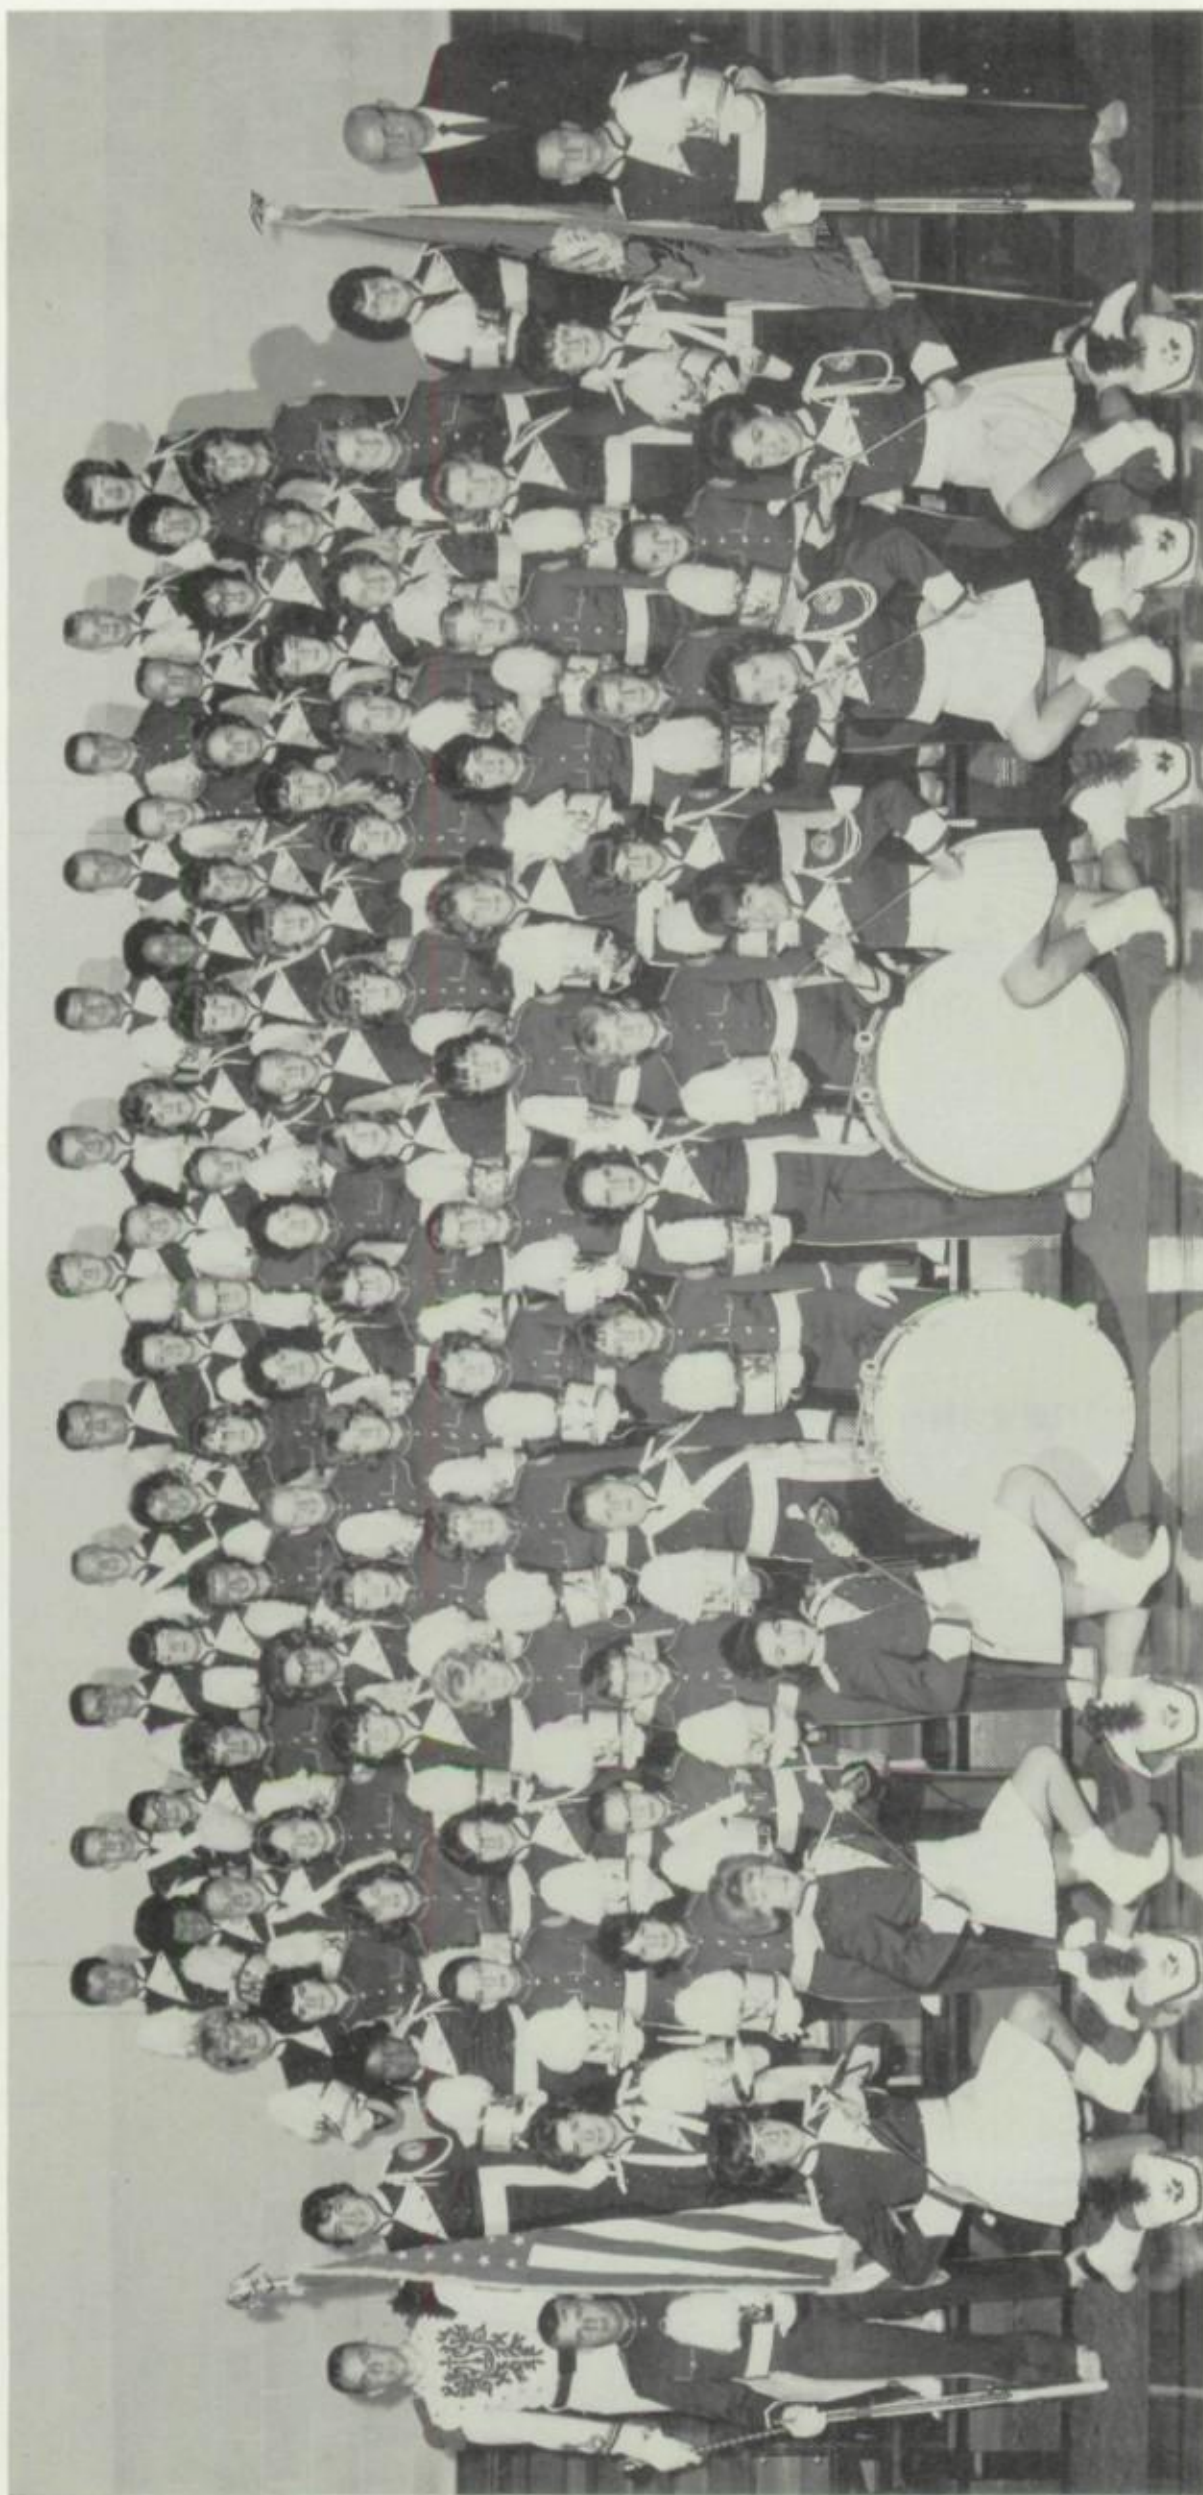

Care as an essential to savings—repairing your own truck bed is a help.

Classes in this department spend a part of their time—as seen above—in learning to do practical tasks with tools, tasks which later will prove to be both time and money savers. They devote other class periods to the study of methods to improve their agricultural pursuits in raising livestock or in growing better crops.

In spite of their own heavy class schedules, these students always find time to type a test or exercise and to duplicate it for busy teachers. They are generous and willing because they realize the importance of the chance to handle responsibility and the value of this practical experience.

FUTURE TEACHERS OF AMERICA

The John C. Baker F. T. A. Club was chartered on October 18, 1950. Any student in Grades 9-12 who professes an interest in exploring the teaching profession may file an application. Those accepted for membership are formally inducted into the Club during American Education Week in November.

The purpose is threefold: to encourage young people to cultivate in themselves the qualities of personality and character which are so essential to a teacher; to acquaint members with the history of our schools and the effect of schools on our democratic way of life; to provide members with specific information about opportunities in the various educational fields.

Members participate in County, Regional, and State conferences and conventions. They meet for business purposes and brief programs two Tuesday mornings a month before classes and hold several evening meetings during the term.
